

Audio Cassette Duplication

In one of our industry's biggest breakthroughs in the decade of the 80's, AMI, LTD. was one of the first duplicators to introduce DAAD technology. After years of R & D, this revolutionary cassette duplication system has been adopted by many of the record industry's most respected labels.

Our 120 slaves and 36 Concept Design high speed ultra modified loaders are equipped to handle orders from five hundred to five million with the same quality and high consistency of ON TIME SERVICE.

Our equipment is maintained by the most highly skilled technicians in our industry. By using highly modified equipment throughout the manufacturing process your product will sound as close to the master as currently possible with today's technology. Today, AMI, LTD. is recognized as one of the most diversified duplicator's of motivational, educational, and children's audio cassettes in the United States.
